I think this is a good opportunity for new players because it helps to reach older players as it provides much more help than level a character during the off-event period. in any case, anyone can create such a character, not specifically just new or returning players. for them, additional rewards are attraction, and of course, to try new classes. create a season character you can create a seasonal character at the window creates character after choosing your character and tagged the option "case character." you can create only one season character per family (every season.) if you want to create another character of the season, you must delete what he had previously created. Unlike classic characters, season characters only take 3 minutes to eliminate. Once you create a season character, you will see a special sign in the font selection window showing that the character is a season character. server season servers are focused on character growth, but only seasonal characters can enter serversprovides fight exp +100; % skill exp +20% buff for the duration of the event. forced pvp is not possible in season servers. season arsha server, a server that will allow players toin forced Pvp, it will be available within a month from the opening of Season Servers. Their name is Season 1-4 and Season (PVP) which was renamed by Kamasylvia 1-4 only for the duration of the event period. NPC Event: Fughar Fughar is an exclusive NPC of Season Server that is located next to the Stabili Keepers in big cities including Velia. Most of the missions related to the season are available from him, so you will encounter quite a bit during your trip. Advantages of the season character You can inlay several rewards during the event, which are: 1. You can get the [Season] Secret Book of the Misty Breeze from Fughar every time you complete the main missions for Balenos, Serendia, Calpheon, Mediah, Valencia, Grána and Drieghan. Use the [Season] Secret Book of the Misty Breeze to get a lot of Skill EXP and grow your character by learning more powerful skills. 2. If you reach Lv. 10 with your seasonal character, you will get a Leveling Aid Box as a reward for the completion of the Season Pass goal. You'll get more elements from Leveling Aid Boxes while you level your character. All these contain elements that will help you on your journey to level 61. If you delete this item, the item cannot be obtained in any other form. 3. Improvement of the gear of Walks Tips You can accept the exclusive seasonal missions from Fughar, one for Family, Excluding accessories, if you equip 7 TRI (III) Tuvala Gears, you will receive 7 Walks Tips (+40) , and if you equip 7 TET (IV) Tuvala Gears, you will receive 7 Walks Tips (+60) . 4. Collect and exchange! During the event period, you can collect special items from the Black Spirit Pass and exchange them for various rewards. In some seasons it was Coco Leaf and Morning Frostflower. Available all the time: – x5: Walks' Cry x1 – x5: Cron Stone x3 Available via Searchat most 3 times per family: – x7: memory of artisans x3 – x7: inventory +2 expansion coupon – x10: advice of walks (25-35) available via thixx30 Horse exchange: – x20: Walks' Tips (+50) – x20: Caphras Stone Bundle (10-50) – x20: Tachros' Spirit Stone – x30: Caphras Stone Bundle (50-100) – x30: Valchi's Tips (+60) – x30: Kamasylve Blessing (20 days) – x30 You can exchange these items at NPC's end 5. Echo by Rift Rift's Echo is a new parchment of bosses recommended for parts of 5 and can only be summoned on season servers. You can create this parchment from the fragments of Rift x5, if you arranged them in a form in a +. These fragments can be obtained by defeating the monsters in Valencia, Kamasylvia, or Drieghan, or as a reward from Savage Rift. Rift Echo can be obtained from doing weekly missions (which I explained below in the Search section). If your team has successfully defeated the monsters summoned by the scroll, the objects obtainable are Full of time, Tuvala Ore, Magic Black Stones and Tuvala Accessories. The essence of the Season Pass is that you have to complete various missions for which precious rewards are. This is only available on the season characters and can be accessed by clicking on the Season Pass icon in the upper right corner (in the picture below). This is a free feature available for everyone. The Black Spirit Pass, on the other hand, is already paid, can be obtained from the Pearl Shop(F3) above level 10, is a premium version of the season pass with prizes. The prizes here are also in the Season Pass window, this is in the second column asin the image above. in both cases, rewards must be activated and taken one after the other. However, it is not mandatory to complete the missions in order, the system will save them in case you can activate in order later. Special characters deserve special equipment. Since the characters of the season can not equip the regular gear, it is necessary to equip the character of naru and tuvala gears. only the set of jewelry asula is an exception to this, as well as the reward elements of the search main story. objects that can be used are marked with a yellow sign of the black spirit. While seasonal characters have an advantage in many ways, one thing is still missing: their inability to ride the horses t9. naru gear introduced for the first time in the autumn season was slightly weaker than the tuvala gear, but you can get it during your whale to mediah adventures. the naru change can also be upgraded with beginner black stones and allows you to achieve higher levels of improvement more easily than the improvement of the tuvala march. shows a fughar an upgraded naru gear up to the pen level (v) and will update it to a pri-level tuvala gear (i) (of the same gear) for you. where to get naru gear pieces: monsters fall into serendy, calpheon and mediah at the end of the main research of history in serendy and calpheon exchange beginner black stones about beginner black stones: it is possible to get them from the main history research, or by heating regular black stones to turn them into beginners black stones. you can exchange them for naru gear a fughar: beginner black stone (armor) x1 = naru armor x1 beginner black stone (armor) x5 = naru accessory x1 beginner black stone (weapon) x1 = naru main weapon box x1 beginner black stone (weapon) x1 = naru Sub-weapon box x1 naru gear: naru gear is very mucheasy to improve compared to Tuvala. You need to use Beginner Black Stones to improve Naru equipment. Naru armor and weapons can be upgraded up to PEN and accessories up toonce reached pen naru armor/arms, fughar can trade for you for the pri tuvala gears (request: finite mediah main line search.) 2. tuvala only the season the characters can oare the tuvala gear, and to get the tuvala gear you will need tuvala ores. you can get tuvala hours defeating monsters to valencia, kamasylvia, drieghan and sycraia underwater ruins. when you have collected enough, you can take your tuvala hours to the blacksmiths to exchange them for weapons, defense tools, or accessories. Npc blacksmiths are found in most major cities. exchange tuvala hours x1 to one of the following: tuvala helmet x1 tuvala armor x1 tuvala gloves x1 tuvala shoes x1 tuvala main armament box x1 tuvala Sub-Weapon box x1 tuvala awakening weapon box x1. exchange tuvala hours x5 to one of the following: tuvala necklace x1 tuvala ring x1 tuvala earring x1 tuvala strap x1. tuvala accessories (from base to pen) can be heated for tuvala ores through the processing Widow(L) and select heating. improvement of the tuvala gear: if you need more help to improve, check our improvement guide. Basically, tuvala gear pieces uses Time-filled black stones to improve. It is a slightly harder process than improving naru gear, but still much easier than improving regular gear parts. However, there is another element that can be used for improvements, which is the magic black stone refined. is used to perform a guaranteed improvement on the tuvala change from pri (i) to tri (iii.) necessary stones for pri (i) gear: 10, per duo (ii) march: 20, and for TRI(III) march: 30. Main missions It is important to follow the main research chains, because it is essential in many ways, for example, the Season Pass also comes to the last reward through these. I said above that for each milestone you leave when you complete one of the main territorial missions, you get the [Season] Secret Book of the Misty Breeze. This book is important because it contains a lot of Skill EXP that helps you grow your character by learning more powerful skills. So, let's do the main missions! 2. Weekly research There are 22 recurring missions, which you can do. You can find these in the search window (press O), and select the recurring tab, and then choose the stronger [Season] Tuvala Gear title. These give you valuable rewards, so I highly recommend you complete these missions. Observable rewards: Echo of Rift Full time black stone Tuvala Black stone refined hours 3. Regional missions are very useful because they give you useful things, such as stones and accessories. If you enter the monster area, the search will be checked automatically. The goal is to kill a certain amount of monsters in each area. The mission prizes are only available for season characters, if you do it with your non-season character, it will only give you Combat EXP.
